Software Engineer with a extensive experience building AI-powered and user-friendly web and cross-platform mobile applications using various technologies including React, React Native, TypeScript, Golang, Rust, Kotlin and Scala to name a few.

Experience

Finteum — Feb 2023 - Now
Software Engineer
🔗 https://finteum.com

I'm part of a team creating a global financial market for intraday liquidity, enabling interbank lending for hours at a time. Using technologies such as React and TypeScript, as well as learning new ones like Kotlin, Scala, Corda and Microsoft Azure, I build scalable solutions that meet the unique needs of our clients in the banking industry.

Cielo Costa — Mar 2022 - Feb 2023
Software Engineer
🔗 https://cielocosta.com

Developed and maintained a SaaS application for health and safety auditing, utilizing full-stack development skills and technologies including React.js, Node.js, MongoDB, and Microsoft Azure. Contributed to the development of a user-friendly interface and ensured that the application was secure and scalable, meeting the unique needs of clients in the health and safety industry.

EMIKETIC Web Technologies — Aug 2021 - Mar 2022
Software Engineer
🔗 https://emiketic.com

Collaborated with clients to develop customized web and mobile applications, gaining valuable experience in full-stack development, including front-end and back-end programming, database integration, and API utilization.

Astrolab Agency — Feb 2021 - Aug 2021
Software Engineer
🔗 https://astrolab-agency.com

Developed the front-end for a user-friendly software application builder designed for non-technical users, utilizing React.js, Apollo GraphQL, and TypeScript. Also contributed to the development of DigiShop, a SaaS platform that empowers users to create and manage their online stores with ease.

Freelance — Feb 2020 - Feb 2021
Software Engineer

Skilled in developing web and mobile projects, with a talent for collaborating with clients to deliver customized solutions. Also provided consulting services to students seeking guidance on coding and development best practices.

CUBE IT Corp — Jan 2020 - Feb 2020
Software Engineer
🔗 https://cubeit-corp.com

Developed a sports mobile application using React Native, including a custom news feed and ticketing store for sporting events. Collaborated with the team to deliver a high-quality product on time, gaining valuable experience in mobile app development and API integration.

Tunisie Télécom — Jan 2019 - Feb 2019
Intern
🔗 https://www.tunisietelecom.tn

Learned network distribution and management in the city of Hammamet. Gained valuable hands-on experience and knowledge from industry professionals, instrumental to career development.

Education

ISET Nabeul — Sep 2018 - Jul 2021
Information Technology — Bachelor's Degree

Atef Chaieb Hammamet — Sep 2014 - Jul 2018
Computer Science — High School Diploma

Certifications

Corda — Feb 2024
R3
🔗 https://www.credly.com/go/X19RuCxt

Corda is an open-source distributed ledger technology platform that enables businesses to transact directly and efficiently using smart contracts.

Developing Secure Software LFD121 — October 2024
Linux Foundation
